MISS LORALI CHAMPNEY PROFILE

SWIMMING TIP ... FITTING GOGGLES

Only purchase goggles that can be tried on prior and fitted before purchasing.

Ill fitted goggles can be detrimental to a swimmer's concentration. (All counter staff at Elder's Swim Centre have been trained to fit goggles correctly).

Goggles last around 6 months, with the anti-fog spray often being rubbed off each time the lens is touched. After a swimming lesson, place the goggles back in the case and **DO NOT DRY THE LENS** with a towel.

Lorali, affectionately known as Miss LOL is a fun, hard working and passionate team member teaching Learn to Swim and currently completing an infants Austswim course.

LOL has "worked at Elder's for 3 years but started as a young dedicated swimmer in squad at the age of 7 years old and has always remained in touch. LOL has a strong work ethic and manages doing disability support work around 20 hours of swim teaching.

Miss Lorali is a terrific team member, always happy and has a great sense of humor. Swimmers and Elder's is fortunate to have her teaching enthusiasm and fun that she brings to classes.

ELDER'S SWIM CENTRE NEWSLETTER TERM 1 2022

SWIMMING IN TERM 1 2022

SCHOOL SWIMMING V'S PRIVATE CLASSES

I often get asked "why pay for lessons when they are having swim lessons at schools".

I could go on for hours about the difference in lesson content, number of students/class (up to 12), you pay for what you get etc.

However quite simply school lessons are extremely valuable to COMPLIMENT private classes after school.

Our school program (Royal Lifesaving accredited) caters for large numbers however we cannot and do not teach different stroke techniques and efficiency.

Comparing both programs is like comparing oranges and lemons.

If possible do both, however keep up the private lessons for long term benefit.

COVID SAFE PRACTICES

COVID safe practices we take VERY SERIOUSLY. As a result you child may have several different teachers this term.

PLEASE DO NOT bring sick children to lessons.

Elder's will NOT allow unwell teachers near your swimmer. That is: High Temperature, Coughing.

Other safe COVID measures include compulsory signing in (Q code photo is encouraged), separate entrance and exits and social distancing.

Thank you for your support and understanding.
